# Language Proficiency Testing

Initial and Proficiency testing in accordance with ICAO and EU requirements

## Overview

For aviation radio telephony a good level of language proficiency is crucial. Therefore **air traffic services personnel, pilots and other flight crew require a language proficiency endorsement** in order to ensure an understandable and safe communication. The proof of language skills must also be regularly refreshed.

DFS Aviation Services offers qualified language proficiency testing for English or German according to the International Civil Aviation Organization (ICAO) requirements.

## Course

### Objectives

- Ensure the level of internationally required language proficiency for aviation radio telephony
- Gain an English or German Language proficiency endorsement ICAO Level 4, 5 or 6

### Content
