

# YOU FLY- WE CARE

Managing Air Traffic Worldwide.

**DFS** Aviation Services

# AIR TRAFFIC SERVICES

Together with our subsidiaries we build on an international experience in providing Air Traffic Services.

DFS Aviation Services and its subsidiaries are responsible for **Air Traffic Services** at a range of airports and aerodromes around the world, with huge variations in local conditions. Our serviced airports range from **AFIS** aerodromes to **small and medium-sized airports** in Germany to **international airports** such as Edinburgh Airport and Jorge Chávez International Airport in Lima, Peru (Apron Control).

Benefit from our many years of national and international experience in:

**Aerodrome  
Control  
Services**

**AFIS**

**Approach  
Control**

**Apron  
Control**

**Remote  
Tower as a  
Service**

# We are DAS

Professional | Agile | International | Modern | Dynamic | Empathetic

We offer Air Traffic Management solutions  
where quality and safety come first,  
with an integrated approach,  
where the customer is in focus  
& based on broad experience

—

because **WE CARE.**

**DFS** Aviation Services

# ENGINEERING & SYSTEMS

Experienced in-house air traffic system development and professional maintenance services.

DFS Aviation Services offers **high-performance ATM systems and tools from the DFS Group**, flexibly tailored to meet your needs. Our solutions are suitable for small and medium-sized as well as large, complex aerodromes. After implementation of your systems, we'll happily take on the **preventive, corrective and adaptive maintenance** to ensure the highest quality and safety standards over the long term.

# TRAINING

The training academy of DFS Aviation Services - DAS A<sup>2</sup> - combines aviation and learning in a practical manner.

Our training team with many years of international, operational and training experience, understands the challenges faced by the ATM community.

Based on our experience as an Air Navigation Service Provider and certified training academy we deliver high professional ATM training for air traffic personnel.

The training portfolio of the DAS Aviation Academy (DAS A<sup>2</sup>) includes:

**Initial  
Training**

**Continuation  
(Refresher) Training**

**Specific Skill  
Training**

**Management  
Training**

**Staff Selection  
Service**

**Customised  
Training**
