INITIAL TRAINING FRANCHISE MODEL

We provide the training framework - you deliver locally.

INITIAL TRAINING - FRANCHISE MODEL

Train locally. Maintain DAS quality.

You provide the infrastructure. We provide the training system. Together we deliver excellence.

The DAS Aviation Academy offers a proven Initial ATC Training Franchise Model, enabling partners to deliver standardised, high quality training aligned with international aviation regulations (EU 2015/340) and ICAO.

Why DAS Aviation Academy

Proven & Validated Training Concept

Established initial training programs used by a leading ANSP

Full Regulatory Compliance

Fully aligned with ICAO and EU regulations (EU 2015/340)

Operational Excellence

Training designed and delivered by experienced air traffic controllers

Advanced Training Technology

State-of-art simulators and immersive learning environments

Global Scalability & Flexibility

Customisable to meet organizational needs, can be adapted to meet national requirements

The Franchise Training Model - Your Benefits

WHAT WE DELIVER

- Standardized **Initial ATC Training Programs** (Basic, ADC, APS, ACS)
- Complete **Training Material Package**
 - Theoretical content including handbooks for students.
 - Simulator exercises & exercise briefings
 - Assessments & examinations: contents, procedures and forms
 - Course structure & schedules, with presentations when required.
- **Learning Management System (LMS)** access
- **Train-the-Trainer Programs**
 - Qualification and proficiency training for your instructors
- **Continuous Updates & Audits**
 - Ensuring compliance, quality & integration of lessons learned.
- **Regulatory Framework & Compliance**
 - EU- or ICAO compliant training framework provided by DAS.
 - Documentation, audits and continuous regulatory updates
 - Support for National Authority approval processes

HOW TRAINING IS DELIVERED

- **Academy-Based Training**
 - Enabling independent local delivery
- **Train-the-Trainer Programs**
 - Training at DAS Aviation Academy
- **On-Site Support**
 - Initial on-site support following the completion of the simulator exercises

INFRASTRUCTURE REQUIREMENTS FOR FRANCHISE PARTNERS

- **Training Facilities**
 - Classrooms and dedicated assessment areas
- **Simulator Infrastructure**
 - Tower and/or Radar simulators based on DAS-approved, scalable technology. Our simulator exercises are based on technology developed by UFA. Together with our industry-leading simulation partner UFA, we can provide a turnkey training solution or discuss implementing within your existing infrastructure.
- **Qualified Personnel**
 - Instructors and assessors with relevant endorsements, qualified via DAS Train-the-Trainer programs.

WHY PARTNER WITH US

- INTERNATIONALLY RECOGNISED TRAINING STANDARDS
 - FLEXIBLE DELIVERY MODELS
 - SCALABLE SIMULATOR SOLUTIONS
 - LONG-TERM PARTNERSHIP APPROACH
