

DFS Deutsche Flugsicherung

The DFS World. The DFS Group. Meet us in Madrid.

World ATM Congress 2020, 10 to 12 March

Booth #834

JOIN US AT OUR PRESENTATIONS & EVENTS

10 March 2020

- 10.10 - 10.30** **Keeping pace with innovation: operating ATC systems in a cloud & web-based environment**
Christian Dorge, DFS Aviation Services
Aireon Spotlight Stage
- 10.20 - 10.45** **ATM Award presentation for AirMagic**
Operational decision support at DFS based on the complexity tool from Airtopsoft
DFS Booth #834
- 11.00 - 11.30** **Live stream from DFS Remote Tower Control Centre Leipzig I**
DFS Booth #834
- 11.55 - 12.20** **Systematic detection of UAS at & around airports**
Angela Kies, DFS Deutsche Flugsicherung
Wing ATM Theatre
- 14.00 - 14.30** **Live stream from DFS Remote Tower Control Centre Leipzig II**
DFS Booth #834
- 15.00 - 16.00** **Maverick Awards Ceremony**
We applied as well.
ATM Theatre
- 16.00** **DFS Reception**
A toast to you! With German beer & pretzels
DFS Booth #834

11 March 2020

- 12.30 - 13.10** **FAB CE and FABEC – Cross-FAB cooperation is making the Single European Sky a reality**
Panel with Prof. Klaus-Dieter Scheurle among others
Wing ATM Theatre
- 13.15 - 13.35** **Functions and workflows in the German UTM system**
Ralf Heidger, DFS Deutsche Flugsicherung
Wing ATM Theatre
- 13.35 - 14.00** **Addressing the demand for ATCOs through innovative resourcing**
Paul Diestelkamp, Air Navigation Solutions
Wing ATM Theatre
- 14.45 - 15.00** **SESAR Tour 11 at the DFS booth**
Free route, approach & arrivals (14:00 - 15:30)
DFS Booth #834
- 16.00** **DFS Reception**
Prost! With German beer & currywurst
DFS Booth #834

EXPERIENCE OUR SHOWCASES

Remote Tower Control

Get the latest update on the DFS Remote Tower Control solution, which has been operational at Saarbrücken Airport for more than a year now. Discover the global activities of the joint venture Frequentis DFS Aerosense to revolutionise tower control.

UAS Traffic Management (UTM)

Get to know our UAS Traffic Management System (UTM), which is operational in Germany. The UTM receives UAS position data via the mobile network of the German telecommunications provider, Deutsche Telekom, and displays these data together with relevant manned traffic. The UAS are equipped with an LTE module with a SIM card.

DFS ATM Suite

Find out about our most important ATC systems:

- ✈ **PHOENIX WebInnovation:** Our latest innovation, based on the well-established tracker technology, with its intuitive web-based HMI and cloud-ready system architecture. Modern, intuitive, flexible, independent.
- ✈ **PHOENIX Tracker & TFDPS:** Learn more about our world-renowned tower systems, using the example of Munich Airport, which has one of the most complex airspaces in Europe and more than 400,000 flight movements per year.
- ✈ **Arrival Manager (AMAN):** With its advanced trajectory predictor and its modules for extended and cross-border arrival management, the AMAN system is the perfect choice – also for highly complex airspaces.
- ✈ **VisAV-E:** Our powerful tool for the technical supervision, control, analysis and quality monitoring of ground and air surveillance.

Would you like an appointment during the event? We would be happy to meet you to discuss your needs.
E-mail us if you would like information in advance.
