

YOU FLY- WE CARE.

MANAGING AIR TRAFFIC WORLDWIDE.

DFS Aviation Services

We are DAS.

Professional | Agile | International | Modern | Dynamic | Empathetic

We offer Air Traffic Management solutions
where quality and safety come first,
with an integrated approach,
where the customer is in focus
& based on broad experience

—

because **we care.**

DFS Aviation Services

We **care** about your

AIR TRAFFIC SERVICES,
AIRSPACE CONCEPTS,
AIR TRAFFIC CONTROL SYSTEMS,
AIR TRAFFIC MANAGEMENT SERVICES
and
AVIATION TRAINING.

ENGINEERING & SYSTEMS

Experienced in-house air traffic system development, professional maintenance services and reliable data provision.

DFS Aviation Services offers **high-performance ATM systems and tools from the DFS Group**, flexibly tailored to meet your needs. Our solutions are suitable for small and medium-sized as well as large, complex aerodromes. After implementation of your systems, we'll happily take on the **preventive, corrective, and even adaptive maintenance** to ensure the highest quality and safety standards over the long term.

AIR TRAFFIC SERVICES

Together with our subsidiaries we build on an international experience in providing Air Traffic Services.

DFS Aviation Services and its subsidiaries are responsible for **Air Traffic Services** at a range of airports and aerodromes around the world, with huge variations in local conditions. Our serviced airports range from **AFIS** aerodromes to **small and medium-sized airports** in Germany to **international airports** such as Edinburgh Airport and Jorge Chávez International Airport in Lima, Peru (Apron Control).

Benefit from our many years of national and international experience in:

**Aerodrome
Control
Services**

AFIS

**Approach
Control**

**Apron
Control**

**Remote
Tower as a
Service**

TRAINING

The DAS A² Academy of DFS Aviation Services combines aviation and learning in a practical manner.

Our training team with many years of international, operational and training experience, understands the challenges faced by the ATM community.

Based on our experience as an Air Navigation Service Provider and training academy we deliver initial training for Air Traffic Control. The object of initial training is to prepare ab initio for unit training at any Air Traffic Services unit.

The training portfolio of the DAS A² includes:

**Proficiency
Training**

**Management & System
Trainings**

**Operative & Conversion
Training**
