

The DFS World. The DFS Group.

Meet us in Lisbon. Airspace World 2026, 26 to 28 May

Booth H1-C52

EXPERIENCE OUR SHOWCASES

Digital Tower Solutions

Explore our various Digital Tower Solutions and learn more about our remote tower control centre for regional airports, with the DAS RTC centre in Germany. Benefit from our experience in digital ATS in Munich and Lima and discover what steps are essential for successful project implementation. Find out more about our lessons learned and best practices from consulting projects around the world.

PHOENIX WebInnovation

Our latest innovation is an integrated, web- and cloud-based air traffic management system that follows the modern Software as a Service approach (SaaS) and service-oriented system architecture, with an intuitive radar screen and electronic flight strips as well as an information management system.

DFS ATS Suite

Our highly scalable and customisable ATS System PHOENIX for centre, approach or tower control units combines modules for Flight & Surveillance Data Processing, Correlation, Conflict Detection in use operationally worldwide into an integrated full-featured ATS Suite with intuitive HMIs for air surveillance situation display and electronic flight strip system.

EXPERIENCE OUR SHOWCASES

Consulting

Proven ATM knowhow at your service. Our portfolio (+29 products) ranges from the traditional, such as airspace design or optimisation of the airside operation, to the more innovative, such as RTC solutions and UAS.

Apron Management

Discover the secret ally for safety at airports – Apron Management. Experience how professional Apron Management supports safe and efficient airside operations, while helping airports to keep traffic flowing, reduce conflicts and stay on schedule, even during peak periods and disruptions.

DAS Aviation Academy

Professional ATM training at our in-house academy. Whether initial or refresher training, standard courses or customised projects, we can integrate either modern synthetic devices or remote simulation into learning events in a meaningful way to meet all of your learning objectives. Our international team of trainers and simulation pilots look forward to passing on their knowledge and experience to all air traffic control personnel.
